

SPIRAL CELLARS

SERVING ELITE CLIENTELE AROUND THE WORLD

With over 28 years of experience, we collaborate with visionary clients around the world to design the most inspiring and industry-leading wine cellars. Sommelier-led, we design for experience, how spaces work optimally and feel luxurious, simultaneously. What sets us apart is our in-house project management service, which goes far beyond the usual. From the moment you decide to invest in a wine cellar, we will go step by step with you to take care of every detail. Your wine cellar is more than a space—it is a journey into luxury.

GENUWINE CELLARS SIGNATURE SERVICE

KNOW OUR CLIENT

Design consultation to determine and understand the client's needs and prepare their wish list.

DESIGN

Creative development of the project and presentation to the client.

BUILD

Execution and project management until the debut of your bespoke cellar.

THE GRAND REVEAL

Unveiling your magnificent cellar, backed by our Lifetime Warranty. Preserving the value and integrity of your wine for years to come.

SPIRAL CELLARS

The magic begins with a glass door that opens at a touch, customizable lighting controlled from your mobile device, and walk-over laminated toughened glass that allows you to peer into your collection from above. With every turn in the Spiral, you are drawn closer to luxury living.

ONE WEEK TO YOUR NEW SPIRAL CELLAR

The Spiral Cellar is fabricated from precast concrete modules. It is fitted into the subterranean space beneath a property (including in areas with very high water tables), or above ground within a basement or crawlspace. The Spiral Cellar can form part of a new build, or be a part of a renovation project. Either way, it takes no more than five to six days to install. We take great care in our work, ensuring our presence is imperceptible in your home, leaving behind only the beautifully finished wine cellar as evidence of our visit.

SPIRAL CELLAR CONSTRUCTION

With a remarkable capacity to house up to 2000 bottles, the Spiral Cellar transforms wine storage into a captivating art form.

2 M - 42 BINS - UP TO 1130 BOTTLES

2.5 M - 54 BINS - UP TO 1450 BOTTLES

3 M - 66 BINS - UP TO 2000 BOTTLES

SAFETY FIRST

Our Wine Cellar Experts have ingeniously crafted a unique mechanical system to maintain consistent temperature and humidity levels, safeguarding the integrity of every bottle.

THE ART OF PRESERVATION

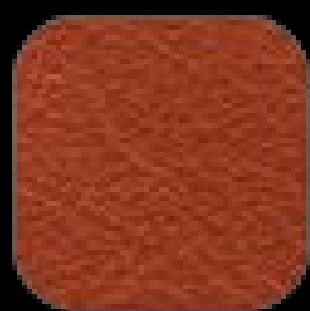

Preserving and protecting your investment is crucial to ensuring that your wines mature to unveil their rich profile and maintain their value over time. With three decades of research and innovation, Genuwine Cellars offers the most sophisticated and engineered cooling solutions. Our specialists create cooling systems that are both discreet and accessible. Intelligently concealed within the build, these meticulously designed systems ensure near museum-like preservation while effectively reducing operational noise. This dedicated know-how represents the pinnacle of aesthetic and technical expertise.

MASTERPIECE SELECTIONS

Rich in texture and exceptional durability, our textile collection allows you to design and customize your cellar to perfection. Crafted from premium textiles that resist wear and fading, each option is designed to enhance the elegance of your cellar while ensuring safe and graceful movement through your collection's hidden sanctuary.

FREQUENTLY ASKED QUESTIONS

ARE THE GLASS DOORS PRONE TO SCRATCHING?

Our glass doors are crafted with scratch-resistant, toughened glass to maintain their pristine appearance. With minimal maintenance, these doors are designed to stay in excellent condition for many years, ensuring both durability and elegance.

IS THE SPIRAL CELLAR CONSIDERED A HABITABLE SPACE?

The Spiral Cellar is not considered a habitable space so the cellar does not need to comply with certain regulations, such as requirements for a handrail and the 'rise' and 'run' of the staircase treads. Investigation into your local building code is recommended.

DO I NEED TO GET PLANNING PERMISSION TO HAVE A SPIRAL CELLAR?

In North America, planning permission for the Spiral Cellar typically is not required if it is installed within your existing home and does not alter the structure significantly. However, local building codes and regulations may vary. We can assist you in navigating these regulations to ensure full compliance.
